TAC Meeting
February 16, 2023

Attendance: Cory Stokes, Greg Scherer, Spencer Jenkins, Jonathan Karras, Mark Johnson, James Deaton, Lynne Yocom, Bill Mott, Joe Breen, Jason Eyre, Jim Stewart,

1. Welcome
2. Word from the UETN Board – Greg Scherer liaison between board TAC
   a. Three Advisory Councils
      i. Telehealth Advisory Council – Matt McCullough
      ii. Education Advisory Council – Rick Gaisford
      iii. Technology Advisory Committee – Greg Scherer
   b. What would you like to see the group discuss
   c. What is the expectation to go back to the board
      i. Allowing the board to have a window into things
      ii. eSports took a big report at the last Board Meeting
   d. How do you take the results of the good discussions.
      i. How do you want to use the informal discussion? How do those turn into action?
         1. Would like to use the group as a sounding board to bounce ideas from and see if heading in the right direction
         2. Not an action item driven committee
      ii. It's a two-way street, being able to respond to the Board if they have questions
      iii. Very organic approach
   e. Take a distilled conversation to the Board to get their input. Example if something was in the news/media.
      i. Let the Board know what the plan is
   f. What are questions that can be taken back to the Board? Are there presentations to present? Show what the committee wants to communicate.
3. Discussion - USHE 5G Strategy Paper
   a. Is this what you are thinking as well?
   b. Please take a look and if you have any questions and/or clarification please let Cory know
   c. Does it make sense on how it was done?
4. Discussion – ChatGPT
   a. A district is embracing- looking at different ways to study student performance
   b. Leveraging the tool to short circuit gaps of development
   c. Thinks it will change productivity
   d. Built an on-call schedule with ease, gave people the same number of holidays off etc.
   e. Great to use as a proofreader
   f. Need to learn about it and what can be done with and what one can learn from it
   g. If ChatGPT goes to a subscription-based plan, should UETN get it for employees?
      i. Consider - ChatGPT takes data people chat with it about to help it learn, so companies were worried about company secrets leaving the company
         1. Maybe corporations have policy: don't send out our base code, form questions in a different way
      ii. Have a learning site especially for teachers - Professional Development
         1. Does this cause any political problems for UETN?
            a. UETN could lead out on the conversation
            b. Working group
5. Discussion – Future technology topics
6. Adjourn
